Jerry,

Once again I am not going to respond to the many misstatements in your email. Discovery is not yet open in the Limitation Action but you can do what you think is right regarding a Motion to Compel.

At this point, without clear direction from your clients on whether they want the vessel retrieved or left on the bottom, I am going to ask DNR what they would like us to do in light of the expressed wishes of Jess Webster and Kevin Coluccio regarding their clients.

Best Regards,
Mike Barcott
